

**Betty Blocks**

*Webinars*

**Ask me anything about the platform**

July 8th 2019

# Your Hosts for Today

- Paul Engel
- Software Developer
- Jermel Ladd
- Account Executive

# Atlanta, London & Alkmaar

Meet the team!

The background is a vibrant watercolor splash of colors including purple, pink, blue, yellow, and green, radiating from the center. A white hexagonal shape with rounded corners is centered on the page, containing the text.

# **Our Big Hairy Audacious Goal**

---

**By 2023, anyone can build an  
application**

**So...**

**Ask us anything about the  
platform!**

Question from Stijn:

*‘What makes Betty Blocks different from other no-code platforms?’*

## Question from Craig:

*'Is it possible to submit data in the front end of one Betty Blocks application to populate in the back office of a different Betty Blocks application?'*

*If so, would this be done via an API or webservice?*

*What would be the level of complexity involved in doing this?*

## Question from Paul:

*Q: 'How do you handle workload  
and disk capacity?'*

## Question from Simone:

*Q: 'How long does it take to build a fully functioning app?'*

Question from Andre:

Q: *'Where can I host my application?'*

Question from Robert:

Q: *'How do I add web services?'*

Question from Angela:

Q: *'How can I create mobile applications?'*

Question from Arjan:

Q: *‘What language does Betty Blocks use? Why?’*
