Seamless Integration with INSIS Software

In a groundbreaking collaboration, Betty Blocks becomes Fadata's first ecosystem partner, bringing insurance companies an unprecedented level of customization and efficiency. This alliance is destined to redefine the way insurance portals are developed and deployed, leveraging the strength of the pre-integrated capabilities with INSIS software.

Customizable Portals at Your Fingertips

Imagination meets innovation as we empower insurance firms to craft bespoke portals that cater perfectly to the unique needs and preferences of clients, agents, and providers. With Betty Blocks' industry-leading low-code platform, the creation of portals becomes a hassle-free and accelerated process, opening up a world of possibilities in personalization.

Exceptional User Experience

Experience the future of user satisfaction as we unlock the potential for creating intuitive and user-friendly interfaces. Our pre-built functionalities facilitate seamless processes such as:

- **Policy Acquisition:** Streamlined pathways for purchasing policies.
- **Claims Submission:** Simplified yet comprehensive platforms for submitting claims swiftly.
- **Agent Portfolio Management:** Efficient tools for agents to manage their portfolios adeptly.
- **Product Review and Modification:** Flexible environments allow for the easy review and alteration of existing products.
- **Quick Quotes**: Hassle-free solutions to obtain quotes for new products promptly.

Extendable Features Through Low-code Technology

Betty Blocks' low-code platform stands as a beacon of adaptability, offering the freedom to effortlessly expand and tailor functionalities to meet evolving demands. This means that the features we offer can grow with your business, adapting and expanding to meet your needs, while maintaining a user-friendly interface.
